

Minimum proxy bid on any single item is \$1,000.00

All Proxy Bids must be in writing, either typed or handwritten. They must be faxed or mailed to our office by the close of business on the day before the auction. Send a deposit check for 25% of your total bid. If you are successful, we will deposit your check and send you an invoice for the balance. If you are not successful, we will return your check to you.

We sell every item without warranty or guarantee, either written or implied. The common term is "as is, where is". We do not have the ability to know everything about every item that we sell. If by chance, you should be the winning bidder on an item and it turns out to be different in any way from what you expected, it is still yours. This is the chance you take with a proxy bid. If you are unsure what to do, come to the auction or have a representative come to the auction, and do the bidding in person.
